

Geami WrapPak® M

The wrapping system for a *lower volume* packaging environment

Presentation

Perfect in-the-box presentation enhances the customer's unpacking experience

Flexibility

Can be placed anywhere for your convenience

Cost efficient

Reduces material handling and takes up less storage space

The ultimate combination of flexibility and ease of use

The Geami WrapPak M is ideal in *lower volume* packaging environments. As it is a *manually operated* unit, it *increases flexibility*. Also, it can be placed anywhere without the need for electricity.

As an example, e-commerce environments where the main goal is to maximize ease of use while offering customers an attractive unboxing experience are a perfect target for this solution.
